Cloud Application Protection Service - CAPS
Backup and Recovery for Microsoft 365
Your Strongest Weapon Against Data Loss

SEP CLOUD APP PROTECTION SERVICE
Microsoft 365
Powered by **keepit**

Without an external backup of your Microsoft 365 data (M365), you are at risk of ransomware attacks and data loss. Microsoft itself recommends using third-party providers for data backup. That's why companies worldwide have chosen SEP CAPS to securely back up their M365 data in compliance with GDPR.

Backup - Specifically designed for Microsoft 365

With the most comprehensive M365 backup on the market, SEP CAPS ensures business continuity with instant access to all your data - always. Our blockchain-based encryption technology ensures that your cloud data is immutable against harmful ransomware attacks or accidental deletion.

With four backup copies in two separate locations outside of the MS-Azure Cloud, we guarantee data availability - always. Thanks to the intuitive user interface, unlimited storage and archiving, and fast restore functionalities that minimize downtime, SEP CAPS is the simplest and most cost-effective solution to protect your M365 data.

Your data deserves the best coverage

SEP CAPS offers the most comprehensive and granular protection for all essential applications in Microsoft 365. We provide the most extensive M365 backup on the market.

Get Your Microsoft 365 Data Back in Seconds

SEP CAPS is specifically designed for administrators, eliminating the need for manual recovery processes. With extremely fast Smart-Search and Restore functions, you can restore multiple terabytes per day and retrieve your M365 data along with the original file structure and metadata to their original storage location.

Our Restore Capabilities

In-Place Restore	PST Download	In-Place Archivierung	Cross-User Restore	Download	Shareable User Link	SharePoint Cross-Site Restore

Worldwide, companies rely on SEP CAPS

Customers around the globe have chosen SEP CAPS as their preferred tool against data loss and downtime. Here are some reasons why they trust SEP CAPS:

Data availability

Exclusively dedicated to safeguarding SaaS data, SEP CAPS' proprietary cloud is designed to ensure data availability - always.

Cost-effective

To make everything simple, all costs, plus international support, are included in the license price.

Simplicity First

A single service that covers all SaaS data protection needs. Popular among administrators for its user-friendliness.

Instant recovery

Restore your data in seconds with our diverse search and restore features, thanks to extremely fast indexing algorithms.

Always safe

Described by analysts as industry-leading, our platform has been built from the ground up for ultimate security.

Here's what our customers are saying:

„SEP CAPS for Microsoft 365 is the easily scalable, comprehensive, complete backup service that includes everything, including unlimited storage and GDPR compliance."
Sven Rollmann, Manager of Operative IT at Laserline GmbH

„Thanks to GDPR compliance, secure georedundant storage of blockchain-based encrypted data in data centers within Germany, and intuitive handling, SEP CAPS is an integral part of our backup and security concept. The competent German support and the fact that all costs are included in the price make the package perfect for us." Hendrik Horn, Head of IT at Resolve BioSciences GmbH
