

Cloud Application Protection Service - CAPS

Backup and Recovery for Salesforce

Your Strongest Weapon Against Data Loss

According to industry analysts, Salesforce data backup Recovery Time Objective (RTO) takes six to eight weeks and costs \$10,000 per restore, per organization.

Can your company afford to bear these costs while simultaneously going without critical business data for weeks? Therefore, secure your Salesforce data with SEP CAPS through daily automatic backups, including unlimited storage, and instant data restoration.

Restoration within Minutes

Easily browse specific or related data, recoverable from any point in time. With SEP CAPS, you can effortlessly restore deleted entries and records. Through secure links, users can directly and conveniently access or download their backed-up data.

Secure your Data

The moment you create a backup of your data with SEP CAPS, they are stored immutably, thus protected against ransomware. Our blockchain-verified storage and file system ensure unparalleled security.

Simplicity to Save Time

Enjoy the advantage of a simple set-and-forget installation that requires no time-consuming training.
